Weekly Report - Week 9

Name: Steven Crosby

W-number: W0218814

Date: March 8th, 2024

Project

Project Name: WPF Music Store application

Project Description: This week was primarily spent addressing a critical issue in the WPF application for the Chinook music store, where buttons on the side of the application were not displaying correctly. Significant efforts were made towards researching and diagnosing the root cause of this bug to facilitate a resolution, though the issue remains unresolved at this time.
