Instructions

Grade: 25%

Statement: Develop the web application using JSP + Servlet + JDBC + MySQL, for the below scenario.

- Todo App
- User Management

Submission: Prepare technical design document to support your viewpoint, and GitHub code repo for your solution.

Rubric

Component	Poor (2 pts)	Fair (4 pts)	Good (6 pts)	Excellent (8 pts)	Result
Technical Design Document	Little to no effort was put to create the technical design document.	Moderate amount of effort was put to create the technical design document.	Much thought was obviously put to create the technical design document.	Display the outstanding evidence of putting the effort to create the technical design document.	
Problem Solving and Efficiency	All problems are solved in an	Some of the program/	Most of the program/	Display the outstanding	

		solution is written/ suggested rather efficiently, keeping in mind that much of the J2ee concepts was learned within the given time period.	solution is written/ suggested in a efficient manner, keeping in mind that much of the J2ee concepts was learned within the given time period.	evidence of problem solving and efficiency.	
	extremely roundabout manner				
Programming Effort	Little to no effort was put into the programming. The programmer didn't even care	A moderate amount of effort was put into the program. However, the programmer didn't seem to care about his/ her work.	Much thought was obviously put into the program. It was well crafted-- and not done in a night.	Display the outstanding evidence of putting the effort.
