Date: February 15th, 2024

Project

Project Name: WPF Music Store application

Project Description: Ongoing development of the WPF application for the Chinook music store, focusing on enhancing functionality and user interface, and integrating the Entity Framework for improved database connectivity. Recent efforts have concentrated on refining the MusicCatalog page and ensuring efficient collaboration through GitHub, with additional measures taken to secure the repository against data corruption.

Project Tasks

Project Tasks	Estimate Hours	% Comp	Actual Hours	Assigned to	Task Description
UI Design and Layout Updates	4	100%	4	Steven Crosby	Updating UI elements such as home page, menus, and buttons. Currently static, awaiting data integration.
GitHub Repository Management	2	100%	2	Steven Crosby	Restructuring and managing the GitHub repository for code collaboration, including restructuring to prevent data corruption.
